REMARKS

The figures of births and deaths shown in this statement for week ending the 12th November, 1955, relate to 236 towns with an estimated population of 33,718 thousands. The total number of towns is 313 and their population is 40,934 thousands. Thus 75% of the total number of towns representing 82% of the total population is covered in this statement. The number of births and deaths recorded in these towns were 23,710 and 8,049 representing birth and death rates of 36·6 and 12·4 per thousand of population respectively.

(*A*) *States* (*Parts A and C*).—The data here relate to 198 towns with an estimated population of 28,456 thousands. Information about Ajmer, Assam and Madhya Pradesh could not be included. The total number of towns is 252 and their population is 32,572 thousands. Thus 79% of the total number of towns representing 87% of the total population is covered. The number of births and deaths recorded in these towns were 20,873 and 6,928 representing birth rates and death rates of 38·1 and 12·7 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(*B*) *States* (*Part B*).—The data here relate to 38 towns with an estimated population of 5,262 thousands. The total number of towns is 61 and their population is 8,362 thousands. Thus 62% of the total number of towns representing 63% of the total population is covered. The number of births and deaths recorded in these towns were 2,837 and 1,121 representing birth and death rates of 28·0 and 11·1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
